**MARCH 21-22, 2016**

# JD EDWARDS WORKSHOP

Oracle's JD Edwards EnterpriseOne is an integrated applications suite of comprehensive enterprise resource planning software that combines business value, standards-based technology, and deep industry experience into a business solution with a low total cost of ownership. EnterpriseOne is the first ERP solution to run all applications on Apple iPad. JD Edwards EnterpriseOne also delivers mobile applications.

The workshop covers the six core activities of an upgrade : Planning, data, customization, integrations, testing and training.

**D. Eric Maikranz**  
Chief Customer Officer – JD Edwards

Eric Maikranz serves as Oracle's Chief Customer Officer for the JD Edwards product lines.

He brings over 15 years of product development, product implementation and product upgrade experience to this role advising Oracle customers on how to maximize their investments in JD Edwards ERP.

**Jeff Erickson**  
Director Product Management for JD Edwards

Jeff Erickson leads the Technology Product Management team for JD Edwards and has been working with JD Edwards EnterpriseOne for 20+ years.

This team is responsible for driving product innovation in the area of Tools and Technology including user experience, Internet of Things (IoT), One View and cloud. In addition to product management, he has lead JD Edwards' development teams and has consulting experience as a Global Advance Technology consultant.
